

*Bronze Sculpture “The Entrepreneur” is an Original Work  
Designed & Created by Dean Kermit Allison.*

This bronze work by Dean Kermit Allison depicts the self made man in his struggle to chisel himself free from common stone. Blindfolded, “The Entrepreneur” must trust his instincts. His hand is battered from misplaced strokes of the hammer, constant reminders of his own mistakes. Not knowing if the next strike of the chisel will cut him off at the knee or allow him to move further toward his goal, he continues unimpeded by his mistakes.
